WORK EXPERIENCE

Test Automation Engineer
OLX Group (Naspers) ↗

08/2016 – Present   *Ortigas Center, Philippines*
OLX is the world's leading classifieds platform, with a presence in more than 40 countries.

- Lead and established the foundation of web base and android app automated testing using PHP, Selenium Appium, Eclipse, Java, and Athena by OLX.
- Ensuring quality of web base and android app before releasing to production by executing automated regression test for each build.
- Successfully facilitated brownbag sessions to improve team capability of writing BDD (Behaviour Driven Development) test features and scripts.
- Maintained and improved Jenkins CI/CD Tools

QA Engineer
CHAMP Cargosystems Philippines, Inc. ↗

08/2014 – 08/2016   *Makati City*
IT company working solely in the air cargo industry, providing services for carriers and distributors

- Ensured that there is no blocker and critical defect/s that will be released. Created and executed manual test cases. Worked closely with the Scrum Teams for defect/s found during regression testing.
- Successfully implemented various automated tools to improved team efficiency like checking of ERRORS in logs, automated deployment, compilation of automated test results and develop a tool to deploy specific build for testing.

Sr. Software QA Engineer
US Auto Parts Network (Philippines) Corp. ↗

09/2010 – 08/2014   *Mandaluyong, Philippines*
U.S. Auto Parts stands as one of the most trusted internet retailers online.

- Created and executed test cases to verify and validate the business and functional requirements of a E-Commerce website.
- Worked closely with project manager, business analysts and developers in analyzing business requirements and reporting defects through automated and manual functional and regression test execution.

Software Tester
Chase Technologies Corporation ↗

11/2009 – 09/2010   *Makati City*
Provider of point-of-sale (POS) software, cash register software, and retail solutions.

- Successfully created and executed test cases, develops user's manuals and troubleshooting procedures. Participates in software design reviews and software walkthrough. Logged defects during the test execution phase.

Associate Software Engineer
Accenture Technology Solutions ↗

07/2008 – 11/2008   *Mandaluyong City*
A leading global professional services company providing a range of strategy, consulting, digital, technology & operations services and solutions.

- Attended classroom trainings, brownbags, and seminars about fundamentals of software testing.
